Erie Canalway Trail

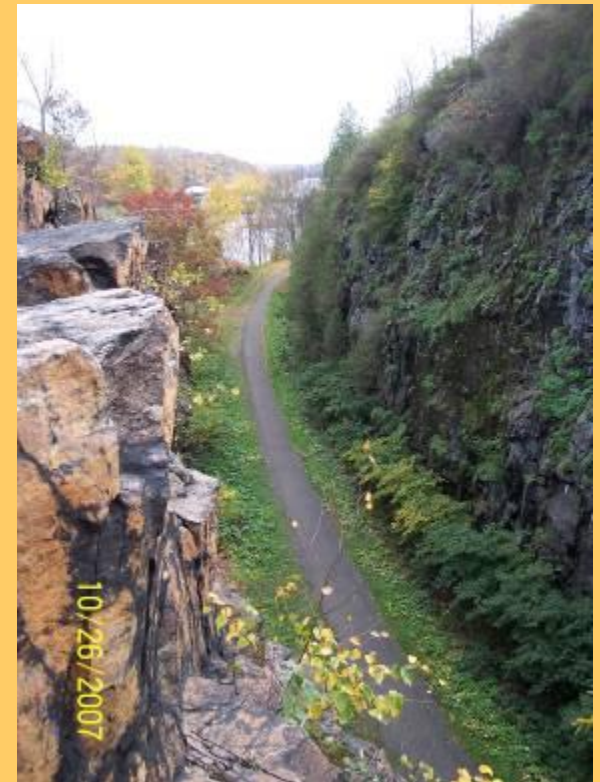

Erie Canalway Trail Connections

Utica to Little Falls

Existing trail to the west of Utica and east of Little Falls

Closing the Utica - Little Falls gap would create **50 miles** of continuous trail from Rome to St. Johnsville

Erie Canalway Trail Connections

Utica to Little Falls

Current design moves the route on-road at Lock 19 in Schuyler

Crossing of the CSX rail line and the canal lock is needed to continue off-road

Erie Canalway Trail Connections

Utica to Little Falls

NY Route 5 is proposed as the route from Schuyler to Frankfort (~ 4 miles)

NYSDOT preliminarily considered using the utility ROW to install a parallel off-road trail separated from traffic

Erie Canalway Trail Connections

Utica to Little Falls

Existing trail parallel
to River Road in
Marcy

Side road/driveway
crossing design
shown

Erie Canalway Trail Connections

Summary

Existing trail to the west of Rome terminates near the Erie Canal Village

Current trail extension project will connect existing trail at Stanwix with Downtown Rome

Proposed trail project would connect the Old Erie Canal State Park trail with Downtown Rome

Closing the Rome gap alone would create ~50 miles of continuous trail from Syracuse to Utica

Existing trail from Stanwix to Utica

Closing the Utica to Little Falls gap would create an additional 20 miles of trail

Closing the gaps in the Erie Canalway Trail through Oneida and Herkimer Counties would create 80+ miles of continuous trail from Syracuse to St. Johnsville
